ACE KIDS GOLF

Since its inception in 1998, 1000 kids have participated in the program. Ace Kid's Golf has a variety of different features, including educational golf and girls in golf that teaches life skills as it relates to golf and life in general. Its programs have produced some very positive results such as improved grades, increased self esteem and junior golfers that have gone on to play in state and national tournaments.

One of its participants graduated from the program and is now at Monterey State working on a golf scholarship, although he received an academic scholarship as well. Other graduates from the program have moved on and attend junior and state colleges. There are 150 kids in its summer program this year and the kids really love it. They play at a number of Oakland golf courses, such as Lake Chabot, Metropolitan, San Leandro and Tilden Park which is a beautiful course in the woods. The kids enjoy it! It's beneficial to the community and it keeps kids off the streets.

"We are very honored and excited to be one of Etourgolf's benefactors and a participant in this world class event. Etourgolf's contribution to our program will assist us considerably in our continued endeavor to introduce less-advantaged youth in northern California to the game of golf.

Without the continued support from our sponsors, donors and volunteers we would not be able to accomplish our goals.' As quoted by Jeff Callaway, Ace Kids Golf Executive Director,

We look forward to making a considerable contribution towards its growth, accommodating more children and expanding throughout California.

*On a global scale, our mission over the next five years through our Live and Televised golf events is to raise approximately **10 MIL USD** for our benefactors, Ace Kids Golf (California), Duke Of Edinburgh Awards Program – Golden Putter (UK, Europe, Ireland), National Aboriginal Sports Corporation (Australia, New Zealand), First Tee (Ohio, Michigan, Nevada), and other junior golf programs that introduce the game of golf to our disadvantaged youth, exposing them to the teachings of sportsmanship and athletics. These golf programs help develop life skills, form relationships that give them a new outlook and direction in life and build opportunities for their future. As the environment plays a big part in their future, we are also supporting Amazon Rainforest projects.*

We at Hole In One, are very committed to developing long standing relationships with Ace Kids Golf and our other benefactors to grow these programs worldwide. With the assistance of our media partners, sponsors, professional endorsements and benefactors, we anticipate meeting and exceeding these objectives.” as quoted by Barbara L.
